## The ACUFC – Taking Action for French-Language Postsecondary Education

The Association des collèges et universités de la francophonie canadienne (ACUFC) represents a network of 21 Canadian French-language colleges and universities. **Our vision is to increase access** to postsecondary education in French and create a true learning continuum for French-language education, from daycare to postsecondary studies. Our banner includes the Consortium national de formation en santé (CNFS) and the Réseau national de formation en justice (RNFJ). Our three key missions are complementary and research-based. Together, we contribute to the vitality and survival of the French language and culture **across Canada** in the **education, health care, and justice** systems.
